Subject: Support for proposed amendment to section 21A (5A)

To whom it may concern,

I hope this email finds you well,

My name is Rowey Worner Butcher and I'm writing as a resident of NSW, enrolled within the [REDACTED] electorate to express my support for the ongoing campaign lead by Harrison James and Jarad Grice to amend section 21A (5A) in the Sentencing Procedure of the Crimes Act.

I believe the current terminology in the act is outdated and provides leverage and support to perpetrators of child sexual abuse when this support should instead be provided to victim survivors.

I look forward to seeing the necessary changes that will come about in response to this campaign.

Best regards,

Rowey
